[Unit tests]
> learn-jenkins-app@0.1.0 test
> react-scripts test --testResultsProcessor="jest-junit"

PASS src/App.test.js
  ✓ renders learn Jenkins link (67 ms)

Test Suites: 1 passed, 1 total
Tests:      1 passed, 1 total
Snapshots:  0 total
Time:       3.447 s
Ran all test suites.
Jest did not exit one second after the test run has completed.

This usually means that there are asynchronous operations that weren't stopped in your tests. Consider running Jest with `--detectOpenHandles` to troubleshoot this issue.
[0;33mOne of your dependencies, babel-preset-react-app, is importing the
"@babel/plugin-proposal-private-property-in-object" package without
declaring it in its dependencies. This is currently working because
"@babel/plugin-proposal-private-property-in-object" is already in your
node_modules folder for unrelated reasons, but it [1mmay break at any time[0;33m.

babel-preset-react-app is part of the create-react-app project, [1mwhich
is not maintained anymore[0;33m. It is thus unlikely that this bug will
ever be fixed. Add "@babel/plugin-proposal-private-property-in-object" to
your devDependencies to work around this error. This will make this message
go away.[0m

```

```
npm audit fix --force

Run `npm audit` for details.
